

Aakash Kalla

Full Stack Developer Intern

aakashpradeepkalla@gmail.com | +91-8928382344 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full-stack developer with experience building and deploying web apps using Next.js, TypeScript, Node.js, Prisma, PostgreSQL, and React. Strong focus on auth systems, database design, and production-ready frontend/backend workflow

EXPERIENCE

Frontend Developer Intern

WebeDigital – 1 Month

- Developed responsive UI for a dating web application using Next.js, TypeScript, and Tailwind CSS
- Converted Figma designs into reusable components and independently built additional pages such as Profile and Chat beyond the original scope
- Ensured cross-device responsiveness and layout consistency for mobile and desktop screens

SKILLS AND INTERESTS

Programming Languages: Java, JavaScript, TypeScript

Frontend: HTML, CSS, React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, NextAuth

Databases: MongoDB, PostgreSQL, Prisma

Tools: Git, GitHub, Vercel

EDUCATION

Ajeenkya Dy Patil School of engineering

Bachelors of Engineering in Computer Engineering

Nov 2022 - June 2026

CGPA – 7.96

PROJECTS

n0track-Real Time Chat App ([Live](#))

React, TypeScript, Vite, Express, Node.js, Tailwind CSS, Socket.IO

- Built a real-time anonymous chat app with room creation/join flows, user presence events, and message broadcasting over WebSockets.
- Implemented socket-based UX with live join/leave notifications, timestamped messages, and responsive UI.
- Deployed a split architecture with backend on Render and frontend on Vercel, including environment-based configuration and health checks.

Smart Complaint Management System ([Live](#))([GitHub](#))

Next.js, TypeScript, Prisma, Supabase, PostgreSQL, TailwindCSS

- Built a full-stack platform enabling users to report civic issues with image uploads and real-time tracking
- Integrated AI-based classification to automatically categorize complaints and route them to relevant departments
- Implemented admin dashboard to manage complaints and update statutes
- Automated email notifications for complaint submission and status updates using Resend

Room-Finder ([Live](#)) ([GitHub](#))

Next.js, TypeScript, Supabase, PostgreSQL, Tailwind CSS

- Built a full stack rental room platform allowing users to find rooms and property owners to list and manage room listing
- Implemented email-based authentication with role selection (Room Finder/ Room Owner) using Supabase Auth
- Designed and deployed a production-ready application with secure role-based access, image storage management, and responsive UI using Next.js and Tailwind CSS

CERTIFICATIONS

- Oracle Cloud Infrastructure (Foundation Cloud Associate)
